01.703.01 – Department Master

PROCESS OVERVIEW

Department Master defines the list of existing departments in Organization.

Once we define department master we can link department code to particular employee so that employees can be bifurcated into Department Master.

Codification for department list should be unique. This codification can be numeric, alphanumeric or numeric only. User can define codes as per his convenience & it will reflect in reports generation when we get order by department reports.

PROCESS PRE-REQUISITES

To perform this process User Rights are required for the Form specifically for *New, Edit, Delete* and *Print* function.

KEY FEATURES

- *Unique code creation for each department*
