01.201.10 – Item Additional Um Master

PROCESS OVERVIEW

In this master we define Additional Um for the item, there are many items those have two additional unit of measurement. For example, rod which can be measured in pieces as well as metric ton, barbed wire measured in meter as well as in kilometer. Also user can define the conversion factor for UM to AUM. This is used in many transaction forms like Indent, purchase order etc.
